In Fig. 2d of this article the values of HIT-6 at week 12 for CM and HFEM were swapped. The correct values are as follows and the figure should have appeared as shown below.  
HIT-6: week 12 HFEM corresponds to –18.1  
HIT-6: week 12 CM corresponds to –22.5

The original article can be found online at <https://doi.org/10.1007/s40120-024-00591-z>.
